A MESSAGE FROM THE DIRECTOR:

The Alabama Criminal Justice Information Center (ACJIC) is pleased to present the fourth annual Crime in Alabama report. This report covers the seven major index crimes, with a separate section on Arson. These data were reported by the State's law enforcement agencies during 1979. The crime statistics are compiled for the entire State, the State's nine Standard Metropolitan Statistical Areas (SMSA), Sheriff's Offices, and municipal police departments.

Requests for additional information may be directed to this office or to the Statistical Analysis Center, ACJIC, 858 South Court Street, Montgomery, Alabama 36130; telephone (205) 832-4930.

It is our hope that this report will provide a comprehensive picture of crime in our State during 1979. We are proud to be a part of the Alabama criminal justice community.

Sincerely,

R.W. Blaylock

preface

This report is the undertaking of the Statistical Analysis Center (SAC), a component of the Alabama Criminal Justice Information Center. SAC is responsible for analyzing and disseminating criminal justice statistics.

The *1979 Crime in Alabama* report is intended to inform law enforcement officials and private citizens of criminal and law enforcement activity in Alabama; these data are then used for analyzing crime problems inherent in the criminal justice system and as a foundation for planning and budgeting.

Geographic areas covered in this report include the State of Alabama, Standard Metropolitan Statistical Areas (SMSA's), county and city strata. A 1979 Crime by County report is contained in Appendix I.

We would like to extend our appreciation to the Uniform Crime Reporting Section of the Alabama Criminal Justice Information Center for the data used in this report. Thanks are also due to law enforcement agencies -- sheriffs' departments, municipal police departments, and campus police -- for their cooperation in the UCR program.

introduction

In October of 1975, Act 872 passed both houses of the Alabama Legislature creating and establishing the Alabama Criminal Justice Information Center (ACJIC) which is commissioned to collect, store, retrieve, analyze, and disseminate criminal justice data. Inherent in ACJIC is a "uniform crime reporting system for the periodic collection and analysis of crimes reported to any and all criminal justice agencies within the state." (Act 872, § 9, 1975.)

As a result of Act 872, 1976 was the first year that mandatory reporting was required of law enforcement agencies in Alabama; prior to 1976, law enforcement agencies participated in the FBI's Uniform Crime Reporting System (UCR) on a voluntary basis. Mandatory submission has resulted in a 185% increase in reporting over 1975.

Alabama's UCR program functions in accordance with FBI standards of operation, i.e., a uniform data collection device and quality control procedures which provide viable crime statistics and an accurate indication of crime and crime trends.

ACJIC has recently initiated an incident-based reporting system as an alternative to UCR. The Standard Internal Recordkeeping System (SIRS) provides a self-contained internal recordkeeping system for the agency as well as data for ACJIC to generate UCR.

SIRS is a voluntary system with 46% of Alabama's agencies participating. Law enforcement agencies have the option of utilizing SIRS instead of UCR summary since comparable data elements can be obtained from SIRS forms. All the information obtained by the investigating officer is recorded on the SIRS forms and a copy is sent to ACJIC. This information is more detailed in nature than requisites for UCR. This wealth of information provides great potential for better services, analyses, and resource studies by both individual agency's crime analysis units and ACJIC.

Alabama's law enforcement agencies are supplied with monthly reporting forms, either UCR summaries or incident-reporting forms. ACJIC's Technical Assistance field staff are made available to the reporting agencies to help answer any questions which may arise regarding forms, crime classifications, and clearance data. The Technical Assistants are also responsible for training law enforcement personnel and maintaining the quality of information for output to the criminal justice system.

When the UCR summaries or incident reports are returned to ACJIC, they are reviewed for accuracy by the quality control section of UCR. Then, the Alabama UCR program furnishes the FBI with monthly data for their verification and review process.

CRIME AND ARREST DATA

Studying criminal activity is one of the best ways to combat crime. Valid crime data can provide a solid foundation for statistical analyses, management-oriented analyses and crime breakdowns. These projects can then aid local police departments in laying out patrol districts, assigning patrol units, and designing community education programs.

Data used in this report is provided by the Uniform Crime Reporting section of the Alabama Criminal Justice Information Center. Both UCR Summaries and Incident Report forms are submitted to ACJIC's UCR section which is the depository of reported offenses and has the responsibility of collecting and disseminating crime data.

In 1979, a total of 375 agencies reported known offenses to Alabama's UCR; 46% of Alabama's law enforcement agencies submitted Incident reports with the remaining 54% returning UCR Summaries.

Through a mandate of Congress, Arson is to be counted as a Part I Offense. So as not to distort percentage changes in total Index Crime and Property Crime, Arson totals will not be included in these sections but rather a separate section on Arson will be included immediately following the section on Property Crime.

Crime data are obtained from the Part I Index of Offenses submitted by law enforcement agencies to Alabama's UCR program. These Part I Offenses are divided into Violent Crimes and Property Crimes.

Violent Crimes include Homicide, Rape, Robbery, and Assault. These crimes are considered violent inasmuch as they are offenses perpetrated against a person (or persons) with a high risk of injury or death to the victim(s).

Property Crimes are comprised of Burglary, Larceny, Motor Vehicle Theft, and Arson*. Property or Non-Violent Crimes lack the aspect of force and/or bodily harm to the victim(s).

Clearance and arrest data are also reported to Alabama's UCR. A crime is considered cleared when enough evidence is found to charge a suspect and take him into custody. It is conceivable that one arrest could clear several offenses or that several arrests could clear one offense. A crime may also be cleared by *exceptional means* in which a solution to a crime is found without formal charges being brought against a suspect. The *clearance rate* is achieved by taking the number of clearances over the number of crimes reported.

This report is a composite picture of criminal and law enforcement activity in Alabama for 1979. It provides a breakdown for the State,

the State's nine Standard Metropolitan Statistical Areas (SMSA's) and localities participating in the UCR program. The report concentrates on the Index Crime of the FBI's Part I Offenses and offers tabular and narrative formats for comparisons, trends, rates, and percentage changes.

In 1979, arson data was collected and counted as a Part I Offense, but, arson totals have been excluded from the Total Part I Index Offenses to keep trend data more accurate. There were 763 incidents of arson reported in 1979; 409 incidents involved structural units; 210 involved mobile property; and 54 included all other. There were 128 arson clearances for a 17% clearance rate. The estimated value of property destroyed by arson in 1979 was $13,455,558 for an average of $17,635 per incident.

The 18 year old group accounted for 782 arrests or 11% of the total adult larceny arrests. The 30-34 year group had 10% of the larceny clearances with 708 arrests. Thirty-two percent of the adults arrested for larceny were white males. Thirty-six percent of those adults arrested for larceny were black males. White females comprised 14% of the adults arrested for larceny and black females, 18%.

In 1979, there were 3,000 arrests for larceny involving juveniles. The 17 year group accounted for 705 arrests or 24% of the juvenile arrests for larceny; the 13-14 and 16 year groups accounted for 647 and 676 arrests, respectively, for 22% of the juvenile arrests for each

group. The fewest number of juvenile arrests was in the 10 and Under age group which accounted for 147 arrests or 5% of the total juvenile arrests. Juvenile arrest data indicates that 78% of those persons under 18 arrested for larceny were male. Fifty-three percent of the larceny arrests were black and 47% white.

In breaking down larceny by value stolen, 29% of the larceny incidences involved property or articles valued at $200 or more producing an average dollar value of $781 per incident. The $50-$200 category effected 35% of the reported larcenies for an average dollar value of $101. Thirty-six percent of the reported larcenies were under $50 and had an average dollar value of $19 per incident.

* *Motor Vechile Theft rate is based on number of vehicles registered by the Motor Vehicle and License Division, October 1, 1977 through September 30, 1978.*

Forty-six percent of the juveniles arrested were below the legal age to lawfully operate a motor vehicle. There was one juvenile arrested in the 10 and Under age group, 13 in the 11-12 group, 61 arrests in the 13-14 age group and 56 in the 15 year category. Ninety-four percent of the juveniles arrested for motor vehicle theft were males. Fifty-two percent of the juveniles were white and 49%, black.

The number of motor vehicles stolen locally and recovered locally was 4,823. The vehicles stolen locally but recovered in other jurisdictions was 1,873. The number of vehicles stolen in other jurisdictions but recovered locally was 1,517.

ARSON

Arson - willful or malicious burning with or without intent to defraud, includes attempts.

* * * * *

Prior to 1979, Arson was classified as a Part II Offense with only arrest data being collected for UCR purposes. Then, as a result of Congressional authorization* Arson was designated a Part I Offense thereby requiring law enforcement agencies to submit reported offenses, unfounded complaints, actual offenses, clearances, juvenile clearances, arson of uninhabited or abandoned structures and estimated value of property damage.

Offense data for previous years is unavailable for Arson thus preventing any trend tables or percentage change over previous years.

In 1979, a total of 763 incidents of arson were reported to Alabama's law enforcement agencies. It should be noted that the heirarchy rule does not apply to arson. Any offense(s) committed in conjunction with arson

* *Title 28, Section 534, United States Code.*

results in the most serious offense as well as the arson being reported to UCR. Of the 763 incidents, 128 arsons were cleared effecting a 17% clearance rate. Juveniles accounted for 4% of the clearances.

A total of 38 juveniles were arrested in 1979 for arson. Eighty-seven percent of the juveniles arrested were males with 67% being white males and 33%, black males. The age group of 10 and Under effected 37% of the juvenile arrests followed by 11 to 12 year olds who comprised 21% of these arrests. The 13-14 and the 16 year groups each made up 16% of the juvenile arson arrests. Fifteen year olds and seventeen year olds each had 5% of the juvenile arrests.

There were 155 adults arrested in 1979 for arson related incidents. Eighty-three percent of these arrests were males and of these 61% were white males with the remaining 39% black males. The age group responsible for most of the arson arrests was 25-29 with 26% of the arrests followed by 30-34 year olds, who effected 12% of the arson arrests.

In 17% of the reported arsons, the structures involved were uninhabited, abandoned, or not normally in use. The total estimated value of property damage in Alabama resulting from arson for 1979 was $13,455,558. This produces an average of $17,635 per incident.

Structural units, mobile property and "other" are the classifications used in reporting arson. Sixty-five percent of the reported arson in Alabama involved structural units; 28% involved mobile property, and the remaining 7% fell into the "other" category. Clearance

data indicates that 21% of the arsons involving structural units were cleared with a 10% clearance rate for mobile property and a 9% clearance rate for the "other" category.

Single occupancy residences made up 55% of the structural arsons and 36% of the total reported arson in Alabama in 1979. Of the 275 single occupancy arsons, 68 were cleared for a 25% clearance rate; juvenile arrests cleared 6%. The arson rate* for single occupancy residences was 23.6 per 100,000 housing units. The arson rate is considerably higher for unoccupied or uninhabited structures, 67.1 per 100,000 unoccupied housing units. The estimated value of property damage for single occupancy residences was $2,328,489 for an average of $8,467 per incident.

Other residences, which include apartments, dormitories, boarding houses, etc., made up 7% of the structural arson incidences. Of the 35 residential arsons, 6 were cleared for a clearance rate of 17%. Juveniles accounted for 3% of the clearances. The arson rate for residential units other than single occupancy dwellings was 3.1 per 100,000 housing units. The arson rate for uninhabited residential structures was slightly higher, 5.0 per 100,000 unoccupied structures. The estimated value of property damage due to arson for other residential units was $118,895, averaging $3,397 per incident.

Twenty-one of the reported arsons in Alabama in 1979 affected storage buildings such as barns, warehouses, garages, etc. This is 4% of the structural arsons and 3% of the total number of arsons reported

to Alabama's law enforcement agencies. The one clearance was a result of a juvenile arrest. Two, or 10%, of these arsons occurred in buildings which were unoccupied or abandoned. The property damage estimate for storage buildings was $586,050 producing an average of $27,907 per incident.

Industrial/manufacturing buildings experienced 2% of the structural arsons in 1979, reporting eleven incidents. One offense was cleared for a 9% clearance rate. The estimated property damage totalled $1,632,500 with an average of $148,409 per incident.

One hundred ten incidents of arson were reported involving commercial establishments, i.e., restaurants, stores, offices, etc.; this is 22% of the reported arson against structural units. Nineteen of these arsons were cleared for a 17% clearance rate. In 13% of the incidents, the structure was uninhabited or not normally in use. Estimated property damage was $2,513,864 producing an average per incident of $22,853.

Community or public buildings such as schools, jails, churches, hospitals, etc., experienced 33 incidents for 7% of the reported structural arsons. Six of the 33 reported offenses were solved for a clearance rate of 18%. Juvenile arrests accounted for 12% of the clearances. One of these buildings was abandoned or not normally in use. The estimated property damage for public buildings was $3,533,800 for an average per incident value of $107,084.

There were 14 reported arsons which involved buildings other than those previously mentioned. These buildings include monuments, outbuildings, buildings under construction, etc. Fourteen percent of

these arsons were cleared and they were cleared by juvenile arrests. In 29% of these arsons the building was not normally in use. Property damage is estimated at $167,932 for an average of $11,995 per incident.

All totalled, there were 499 reported incidents of arson involving structural units. Of the 499 arsons, 103 were cleared for a clearance rate of 21%; twenty-four of the 103 clearances involved juveniles. In 83 incidents, the buildings were uninhabited, abandoned, or not normally in use. The total estimated property damage for structural units was $10,881,528 with an average of $21,806 per incident.

Twenty-eight per cent of the total reported arson in 1979 involved mobile property. For the purpose of reporting arson data, mobile property consists of motor vehicles and other mobile property.

By UCR definition, motor vehicles include automobiles, trucks, buses, motorcycles, etc. In 1979, there were 193 arsons reported involving motor vehicles. This was 92% of the arson against mobile property and 25% of all reported arson. Nineteen of these offenses were cleared for a 10% clearance rate; juveniles accounted for 2% of the clearances. The arson rate* was 6.6 arsons per 100,000 motor vehicles. Estimated property damage for motor vehicle arson was $2,335,260 averaging $12,099 per incident.

CITY DATA

For the purpose of this report, Alabama's cities will be classified on the basis of population and include both incorporated and unincorporated areas. Population estimates are derived from data submitted by law enforcement agencies to the Alabama UCR. The city strata used in this report are as follows:

250,000 or more	1 city
50,000 - 250,000	6 cities
25,000 - 50,000	9 cities
10,000 - 25,000	17 cities
5,000 - 10,000	37 cities
1,000 - 5,000	121 cities
Less than 1,000	106 cities

The tables, on the following pages, group cities according to population and list ORI numbers and city names. The percent change is the increase or decrease in reported crime over 1978.

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

It is important to note that clearance data is reported on a monthly basis to UCR and, therefore, it is possible for an arrest made in one month to clear a crime committed in previous months or years.

APPENDIX II

Appendix II is an addendum to the section on Law Enforcement Employee Data. Included in this appendix is a breakdown of full-time sworn and full-time civilian employees working for law enforcement agencies in Alabama; this includes sheriff's offices, police departments, and campus police.

Information for this appendix was obtained from law enforcement agencies for the period November 1, 1978, to October 31, 1979. Asterisks denote no response to the employee data sheet. Two percent of Alabama's law enforcement agencies did not submit employee data.
